

First-Year Interest Groups

Fall 2011

First Year Interest Groups (FIGS) are popular course combinations that will give you the smart advantage on your career path!

A FIG provides a connection to learning in three or four courses focused on a common career theme or interest area. Students sign up for the set of linked courses and can round out a full-time schedule by selecting courses from the college catalog to fulfill General Education requirements, if needed. Students will have the opportunity to interact and study with the same group of students in these linked classes, and have the benefit of three or more faculty members working together to guide successful learning.

Deciding on Business (FIG-B) 9 credits

MIS-101-FIG-B	T/Th	9:30 – 10:50 a.m.
