This program of study is designed for students whose career and educational plans are uncertain; it allows maximum flexibility in the choice of courses. Students who are exploring various interests may begin their academic career in this program of study. The electives may be used by those who wish to design their own program of courses or to concentrate in an area of academic and occupational interest. The curriculum provides a background in the humanities, in science, in mathematics, and in the social sciences. Students should consult an academic advisor for further information and career direction. By using the online ARTSYS program at <http://artweb.usmd.edu>, students can plan a course of study that will transfer seamlessly to a baccalaureate degree-granting institution. For maximum credit transferability, students should choose a major and transfer institution before 30 credits are earned.
