The Kids@Carroll website carrollcc.edu/summerkids includes instructions about medication forms required for medications dispensed during the program hours.

Students need to be picked up by a designated individual within a 45-minute window of notification by the Health Room.

We understand that some students require additional assistance to meet that standard, and we will determine if reasonable accommodations can be provided that will allow the successful delivery of instruction to all students in the class. To help us meet this goal, after you have registered, please contact our Disability Support Services disabilitysupport@carrollcc.edu at least two weeks before the start of the earliest camp to inform the College of any physical disabilities or behavioral/social challenges your child has and to discuss possible accommodations. A staff member will contact you to discuss your child's individual needs and determine what reasonable accommodations can be made. Carroll Community College does not provide medical assistants or personal care attendants. Campers are expected to exhibit independence and ability for self-care. Parents are not permitted to attend camp with their child.

Behavior contrary to the college code of conduct cannot be tolerated and may result in dismissal.

Medication

No medication will be administered without the Medication Authorization Form signed by the health care provider and received by the camp at least 2 weeks PRIOR to your camper's first day. This form must be completed fully for staff to administer the required medication or for the camper to self-administer medication.

A new medication administration form must be completed at the beginning of each camp season, and each time there is a change in dosage or time of administration of a medication. Medication must be in original containers. Prescription medication must be in a container labeled by the pharmacist or prescriber.

Nonprescription medication must be in the original container with the instructions for use. Nonprescription medication includes vitamins, homeopathic, and herbal medicines. This includes campers with insulin pumps, asthma inhalers, and Epi pens.

An adult must bring the medication to the camp and give the medication to an adult staff member. Self-carry is only permitted for emergency medications such as inhalers and epinephrine. Both the prescriber and the parent/guardian must consent to self-administration, and the camper must be over the age of 11.

Summer!Kids@Carroll + Teen College reserve the right to revoke self-carry or self-administration of any medication at any time. Find the Medication Authorization Form (under Forms).
