Take your game design skills to the next level by creating and animating your own character sprites, objects and backgrounds. Start with a name and develop the character's personality, signature moves, special powers and a storyline. Finish with a fully animated character to be used in your very own game. Campers do not need any prior experience in game design, animation or sketching. Camper-created games will be available on a password-protected Black Rocket website to share with friends and family. This camp is designed to be collaborative and campers will work in teams for most of the program. Class size is limited. *In partnership with Black Rocket Productions.*

Registration Info & Other Stuff to Know

Emergencies and Special Needs

Health & Emergency Contact Form

A current Health & Emergency Contact form is required for each participating child by June 1. A new form must be completed each year. Without this completed form on the first day of the program, your child will not be able to participate. Access this form online at carrollcc.edu/summerkids or call 410-386-8100 to pick up or have a form mailed.

Emergencies

If an emergency occurs, appropriate medical attention will be administered and the person designated on the form will be contacted immediately. A nurse will be on call during the program hours and a person authorized to administer selected medications (with all required forms) and first aid is on duty. The Kids@Carroll website carrollcc.edu/summerkids includes instructions about medication forms required for medications dispensed during the program hours.

Students need to be picked up by a designated individual within a 45-minute window of notification by the Health Room.

A Health Room (Isolation Room) is designated for campers and staff displaying COVID-like symptoms. Wearing a mask will be required in this room while campers are waiting to be picked up.

Special Needs

Summer!Kids@Carroll + Teen College is committed to providing accessible education and a supportive learning environment for all students. To help us meet this goal, after you have registered, please contact our Disability Support Services (410-386-8329) at least four weeks before the start of the earliest camp to inform the College of any physical disabilities or behavioral/social challenges your child has and to arrange for reasonable accommodations. A staff member will contact you to discuss your child's individual needs and determine what reasonable accommodations can be made. Carroll Community College does not provide medical assistants or personal care attendants. Campers are expected

to exhibit independence and ability for self-care. Parents are not permitted to attend camp with their child.

Masks are optional and mask wearing will not be enforced by our faculty and staff members. It is the parents' and campers' responsibility to supply and to ensure proper use of the masks. All who choose to wear a mask will be treated with respect.

We reserve the right to make changes to our guidelines and programs described at any time based on the most current CDC, State and local Covid recommendations without notice or liability. Please check periodically for changes.

Emergency Notification System

It is recommended that you register for the College's free Emergency Notification System. Messages about any emergency closings will be sent directly to your email or cell phone. To register, go to carrollcc.edu/alerts. We have a special Kids@Carroll group that will only be active in the summer.
