Possible Hazards and Chemicals Biology 210

This list of substances represents the possible hazards currently identified for this course; however, substitutions or additions are possible. Do not assume a substance is safe if it is not listed. You will be notified of changes as soon as they are available. If you are aware of any known allergies or sensitivities to chemicals, please let your professor know prior to the first lab class.

Chemicals:
Preserved specimens in Carolina Perfect Solution (sheep brain, cow eye)
Monk Wipes

Household Items:
Vinegar
Chicken bones
Beverages of varying colors and flavors
