

Lynx Learning Goals

All students will practice these skills, identified as essential by employers and transfer institutions, in their General Education classes at Carroll Community College.

COMMUNICATION

Clearly convey ideas and information.

MATHEMATICAL AND SCIENTIFIC REASONING

Interpret and explain ideas through calculations, data and graphs.

THINKING STRATEGIES

Develop well-reasoned judgments based on a range of evidence.

INFORMATION LITERACY

Locate, evaluate and ethically use reliable sources of information.

TECHNOLOGICAL COMPETENCIES

Use technology and digital tools to complete tasks.

CREATIVITY AND INNOVATION

Investigate issues through inventive and interdisciplinary approaches.

WELLNESS

Cultivate practices that promote the wellness of self, community and environment.

GLOBAL AND CULTURAL AWARENESS

Explore beliefs and values that shape interactions in a multicultural world.
