E. Program Articulation Agreement

The following details a recommended course of study for students earning the A.S. in Physical Science with a concentration in Chemistry at Carroll transferring to McDaniel in pursuit of the B.A. degree with a major in Chemistry. The course recommendations are designed to meet the general education requirements of both Institutions at optimal levels. In the spirit of the College Readiness and Completion Act of 2013, this Agreement encourages the completion of all associate degree requirements.

Students interested in this program must complete the McDaniel College application process and be admitted to the College before credit evaluations are completed at McDaniel. Only courses with a "C-" or higher are eligible for transfer.

McDaniel requires students to have a minimum of 128 credit hours (credits) to graduate with a B.A. The Chemistry major requires 52 credits. The remaining 76 (or more) credits come from electives and general education requirements. Carroll requires students take a minimum of 60 credits to get an A.S. in Physical Science with a concentration in Chemistry.
